#### **ELDER PEOPLE COMMITTEE**

Participation in the third national encounter on "Cuidados, género y diversidad" (Care, genre and diversity).

Date May 28, 29 and 30

The Ministerio de Desarrollo Social, through the Secretaría Nacional de Niñez, Adolescencia y Familia (SENAF),

organized the third national encounter on "Care, genre and diversity". This activity took place between last Tuesday and Thursday at the Home called LeDor VaDor in Buenos Aires City. It was part of the programme of home caretakers launched by the Dirección Nacional de Políticas para Adultos Mayores (DINAPAM).

During the seminar, the participants debated and reflected on their knowledge on sexual diversity for social inclusion of the elder.

Besides, topics related to care services were discussed, such as sexual diversity, genre, social organizations and public policies.

The objective was to promote reflection spaces on social inclusion acknowledging sexual diversity.

During the opening, we had the valuable participation of SENAF secretary Gustavo Piantino; DINAPAM Representative, Mónica Roqué; Coordinator of Work Area and sexual diversity from Ministerio de Trabajo, Matilde Garuti; and general operative coordinator of PAMI social and community promotion management Araceli Mastellone.

Through the national programme of home caretakers, the ministry aims at making the elder people to stay at home the most avoiding institutionalization by means of personal care and service. This kind of encounters constitute instances that certify the commitment of a present State that develops Elder policies based on a rights paradigm towards the improvement of life quality for the Elder.

"Be rule-breakers, do not say yes to everything. Remember that experience does not retire.

The challenge is that all Elder people be subjected to their rights"
